250 MET/252 ON-OFF Piero Lissoni with S. Sook Kim

Eleganza formale, confort, un'ampia articolazione che permette grande flessibilità di utilizzo sono le caratteristiche di questo sistema. Divani in tre dimensioni, angolari innovativi, comodi terminali di diverse larghezze e con possibilità di allungo, elementi intermedi, poltrone lunghe, una panca e un pouf, cuscini decorativi rettangolari e quadrati: questo è Met. Tutti i rivestimenti sono completamente sfoderabili. La struttura interna è in acciaio e l'imbottitura in poliuretano espanso, privo di CFC, a densità differenziata e ovatta di poliestere. Piedi in alluminio brillantato o verniciato grigio opaco. Il sistema è completato da tavolini rotondi in altezza 45 cm. (Ø 50) in alluminio opaco oppure laccati in cinque diversi colori.

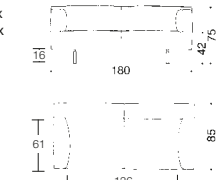

Elegant design, comfort and a wide range of practical and flexible units - these are the features of this system. Three sizes of sofas, innovative corner units, comfortable end units in different widths with incorporated footrest if required, center units, armchairs with legrest extensions, a bench, a hocker, decorative square and rectangular cushions - this is the world of Met. All covers can be removed for cleaning. Frames are made of steel and the upholstery comes in differentiated density CFC - free polyurethane foam and polyester padding. The feet are in polished or grey mat-painted aluminium. The system also includes round (Ø 50) occasional tables in mat aluminium or lacquered in five different colours.

Eleganz, Ästhetik, Komfort und die Vielzahl von Elementen, die hohe Flexibilität gewährleisten - das sind die Hauptmerkmale dieses Systems. Sofas in drei unterschiedlichen Breiten, innovative Sitzecken, bequeme, unterschiedliche und verlängerbare Endelemente, lange Sessel und eine Bank, rechteckige und quadratische Dekorkissen - das ist Met. Alle Bezüge sind vollkommen abziehbar. Das Innengestell ist aus Stahl und die Polsterung aus FCKW - freiem Polyurethanschaum mit differenzierter Dichte und doppelter Polyesterwattierung. Die Füße sind aus poliertem oder grau matt lackiertem Aluminium. Das System wird komplettiert durch runde (Ø 50) Tische, 45 cm hoch, aus Aluminium matt oder lackiert in fünf verschiedenen Farben.

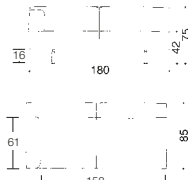

Ce système se caractérise par l'élégance des formes, le confort et une large déclinaison assurant une grande liberté d'emploi. Des canapés en trois dimensions, des angles innovateurs, des éléments terminaux confortables de différentes largeurs et pouvant être rallongés, des éléments intermédiaires, des fauteuils avec prolongement d'assise, une banquette, un pouf et des coussins décoratifs rectangulaires et carrés: ça c'est Met. Tous les revêtements sont entièrement déhoussables. La structure intérieure est en acier, le rembourrage est en polyuréthane expansé, sans CFC, à densité différenciée et ovate de polyester. Pieds en aluminium brillant ou verni gris mat. Le système est complété par des petites tables rondes (Ø 50) en aluminium mat ou bien laquées en cinq différentes couleurs.
