

Coordinates Module Suspension CLIII

F1889033 - Argent

Designed by Michael Anastassiades

Coordinates is a lighting system with diffuse light composed of horizontal and vertical luminaries arranged in a bright grid of various shapes and complexities. Each element is made of extruded an odized aluminium with a champagne finish and a diffuser in platinum optical silicone with an integrated LED strip (CRI 95). Each element is powered and supported by an invisible electrical and mechanical connection designed specifically to allow for the composition of the 4 hanging models (S1, S2, S3, S4) with 2.5-m cables. The 'S Module' is also available. Its geometry was designed to be repeated to create large grids for custom installations. Each Coordinates configuration includes its own ceiling rose, whose integrated electronics allow for the use of different dimmer systems: push, 1-10, DALI. In the absence of these systems, the amount of light can be set during installation with the push system included in the rose. The related CI III version is also available for each configuration for installations with a remote power supply.

Main specifications			
Mounting Environment	Suspension Indoor dry location	Lamp holder Autoprotected Lamp Source Power (W)	LED Module No 180
Light source type Light source replaceable LED type	LED Replaceable (LED only) light source by a professional LED Module	Source Flux (lm) System Flux (lm)	10230 10230
Optical			
Lighting Type Lighting distribution CCT (K) CRI> Cold Beam Lighting Extreme Cut off	Total Asymmetric 2700 90 No No		

Electrical		
Insulation class	Ш	
Main Voltage (Vac)	48	
Batteries Inside	No	
Cord length (mm)	2400	

Physical Colour Argent 1762 IP external 20 Length (mm) 1762 Net weight (kg) 6 Gross weight (kg) 13.23 IP 20
